Renal Gene Test Women

SAMPLE SUMMARY REPORT

Renal Disorders

Chronic Renal Conditions

Traits		Risk	Rating	Description
2	Chronic Kidney Disease	Slightly Elevated	6.6	As per your genetics, you have a slightly elevated risk of developing chronic kidney disease.

Congenital Renal and Genitourinary Conditions

Traits	Risk	Rating	Description
Vesicoureteric Reflux	Slightly Elevated	6.2	As per your genetics, you have a slightly elevated risk of developing Vesicoureteric Reflux (VUR).

Congenital Renal Diseases

Traits		Risk	Rating	Description
	Childhood Nephrotic Syndrome	Slightly Elevated	7.4	As per your genetics, you have a slightly elevated risk of developing childhood nephrotic syndrome.

Endocrine and Metabolic disorders

Traits		Risk	Rating	Description
8	Hypomagnesemia	Slightly Elevated	6.8	As per your genetics, you have a slightly elevated risk of developing hypomagnesemia.
•	Hyperuricemia	Typical	5.7	As per your genetics, you have a typical risk of developing hyperuricemia.

Glomerular Disorders

Traits		Risk	Rating	Description
3	Idiopathic Membranous Nephropathy	Typical	5.8	As per your genetics, you have a typical risk of developing idiopathic membranous nephropathy.
	IgA Nephropathy	Typical	5.7	As per your genetics, you have a typical risk of developing IgA nephropathy.
**************************************	Focal Segmental Glomerulosclerosis	Slightly Elevated	6.1	As per your genetics, you have a slightly elevated risk of developing Focal Segmental Glomerulosclerosis (FSGS).
•	Chronic Glomerulonephritis	Typical	4.7	As per your genetics, you have a typical risk of developing chronic glomerulonephritis.

Inherited Renal Conditions

Traits		Risk	Rating	Description
	Polycystic Kidney Disease	Slightly Elevated	6.8	As per your genetics, you have a slightly elevated risk of developing polycystic kidney disease.

Systemic Lupus Erythematosus (SLE)

Traits		Risk	Rating	Description
	Lupus Nephritis	Slightly Elevated	6.6	As per your genetics, you have a slightly elevated risk of developing lupus nephritis.

Urinary Calculi

Traits	Risk		Rating	Description
••••••••••••••••••••••••••••••••••••••	Renal Calculi	Typical	5.3	As per your genetics, you have a typical risk of developing renal calculi.

How to Read Your Report

— WHAT IS GENETICS? -

Human are made up of cells

Cells are made up of nucleus

Nucleus is made up of Chromosomes are made chromosomes up of DNA

DNA is made up of genes

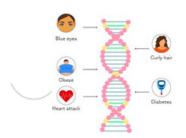

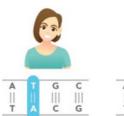

Genes are coded by nucleotides

Changes in nucleotides lead to genetic variations Straight hair Curly hair

WHAT IS PREDICTIVE GENETICS?

Population with predisposition to curly hair

Population with high risk

Genetic Variations Make Us All Unique

Population with predisposition to blue eyes

Population with high risk

— SCORE INTERPRETATIONS —

SCORE	DEPICTION	INTERPRETATION
0-2	Excellent / Protective	An 'excellent / protective' score indicates a very favorable response or ability for a trait
2.1-4	Good / Lower Risk	A 'good / lower risk' score indicates a favorable response or ability for a trait
4.1-6	Typical	A 'typical' score indicates a typical response or ability for a trait
6.1-8	Poor / Slightly Elevated	A 'poor / slightly elevated' score indicates an unfavorable response or ability for a trait
8.1-10	Very Poor/ Highly Elevated	A 'very poor / highly elevated' score indicates a very unfavorable response or ability for a trait

— GENERAL GUIDELINES —

Genetic risk or predisposition given in the report is based on statistically relevant genomics research studies, which should not be taken as a diagnosis of any health condition or overall wellness. Traits in the report are not genetically interlinked; their genetic associations are independent of each other.

Therefore, every trait score and interpretation are independent of each other.

This report provides information about genetic predispositions only and may not indicate current conditions or characteristics.

The information in the report may provide an understanding of one's genetic risks and may help in making informed decisions regarding one's wellness and goals.

Please consult with your doctor, or other qualified health care professional before making any dietary, fitness, health and wellness related changes.
