

Eyes are the mirror to your world. This panel covers genetic risks for conditions that may impact vision and eye function, serving as an eye-opener for issues we might not foresee with the naked eye.

Eye Disorders

- Myopia

Corneal Disorder

- Keratoconjunctivitis sicca
- Keratoconus

Ophthalmic Disorders

- Cataract
- Glaucoma

Orbital Disorders

- Graves Ophthalmopathy

Refractive Error

- Age Related Macular Degeneration (ARMD)
- Astigmatism

Retinal Disorders

- Birdshot Chorioretinopathy
- Central Serous Chorioretinopathy
- Hyperopia
- Polypoidal Choroidal Vasculopathy
- Retinal Occlusion
- Stargardt Disease

Ophthalmology

Eye Disorders

Traits	Risk	Rating	Description	
	Myopia	Typical	6.0	As per your genetics, you have a typical risk of developing myopia.

Corneal Disorder

Traits	Risk	Rating	Description
 Keratoconus	Slightly Elevated	7.8	As per your genetics, you have a slightly elevated risk of developing keratoconus.
 Keratoconjunctivitis sicca	Slightly Elevated	6.1	As per your genetics, you have a slightly elevated risk of developing keratoconjunctivitis sicca (Dry eye)

Ophthalmic Disorders

Traits		Risk	Rating	Description
	Cataract	Slightly Elevated	6.3	As per your genetics, you have a slightly elevated risk of developing cataract.
	Glaucoma	Typical	5.9	As per your genetics, you have a typical risk of developing glaucoma.

Orbital Disorders

Traits	Risk	Rating	Description
 <div>Graves Ophthalmopathy</div>	Slightly Elevated	6.2	As per your genetics, you have a slightly elevated risk of developing Graves' ophthalmopathy.

Refractive Error

Traits		Risk	Rating	Description
	Hyperopia	Slightly Elevated	7.0	As per your genetics, you have a slightly elevated risk of developing hyperopia.
	Astigmatism	Typical	5.2	As per your genetics, you have a typical risk of developing astigmatism.

Retinal Disorders

Traits		Risk	Rating	Description
	Age Related Macular Degeneration (ARMD)	Slightly Elevated	6.8	As per your genetics, you have a slightly elevated risk of developing age- related macular degeneration.
	Polypoidal Choroidal Vasculopathy	Slightly Elevated	7.6	As per your genetics, you have a slightly elevated risk of developing polypoidal choroidal vasculopathy.
	Birdshot Chorioretinopathy	Typical	5.0	As per your genetics, you have a typical risk of developing birdshot chorioretinopathy.
	Central Serous Chorioretinopathy	Typical	5.3	As per your genetics, you have a typical risk of developing central serous chorioretinopathy.
	Retinal Occlusion	Typical	5.6	As per your genetics, you have a typical risk of developing retinal occlusion.
	Stargardt Disease	Slightly Elevated	6.2	As per your genetics, you have a slightly elevated risk of developing Stargardt disease.
